I am requesting a summary judgement on my pending 2255 motion. My release date is currently August 9th, 2014. Purposly waiting untill I am released so I can be denied as mast is a denial of my right to the 2255 process. My original motion was filed in September of 2011 and I have been at issue for 23 months now.

I am asking the court to give immediate attention to this motion and reach a decision as soon as possible.
